### About

---

I'm an enthusiast learner developing my skills in programming and web development. I have experience working on academic and personal projects which helped me understand the fundamentals of building software. I'm actively improving my technical knowledge as well as problem solving ability towards seeking an opportunity to gain practical experience and grow in a professional setting.

### Education

---

Bachelor Science in Computer Science & Engineering (BSc in CSE)

United International University (UIU), Madani Avenue, Dhaka, Bangladesh

CGPA: 3.39 || Completed Credits: 51

Current Trimester: 6th | Expected Graduation: 2028

### Experience

---

Former Intern in UIU CanSat Software Sub-team.

### Project

---

- **BirdSenger**  
A super app that lets users engage socially and manage finances seamlessly on a single platform.
- **Tuition Fee Installment App**  
Computes installment amounts with adjustments for waivers or scholarships.
- **Rock-paper-scissors Game**  
Developed with GUI allowing user interaction through visual elements and implementing game logic for real-time outcomes.
